

CORRGAZETTE

NEW ADDITIONS TO THE CORREACTOLOGY® COMMUNITY:

Graduation coming soon for Correactology® students!

Top: Jenny Davidson, Luciano Ingriselli Bottom: Julie Léger-DiMaio, Kirsti Conron

You may have noticed some new faces around Correactology® clinics. Students from the Canadian Institute of Correactology are currently completing the clinical portion of their studies. These students have different backgrounds and are bringing their impressive strengths and abilities to the Correactology® team.

After years of hard work and

dedication, these students have almost finished their schooling and are eager to start practicing.

Stay tuned for their graduation and placement updates. Everyone at the Correactology Health Care Group Inc. wishes these students the best of luck in completing their internship and with their final exams!

DID YOU KNOW?

- There are more bacteria in your mouth than there are people in the world.
- You burn more calories sleeping than you do watching TV.
- In some countries, people protect their babies from disease by bathing them in beer.
- The human body has less muscles than a caterpillar.

TRIVIA

1. What percentage of the world has green eyes?
A) 10 B) 33 C) 2 D) 50
2. Biopsy, Abhors, Chimps, Aegilops, Almost, Ghosty, Begins, Billowy. What do these words have in common?
3. How much DNA do humans share with bananas?
A) 0% B) 20% C) 2% D) 50%
4. What is the only muscle in your body that is attached at one end and not the other?

Originally from Caraquet, New Brunswick, Marilyn Doiron is a patient services coordinator at the clinic in Timmins. A smiling face at the front desk, Marilyn notes that all of the patients are intriguing people who make her job a lot more interesting. Working at a Correactology® clinic has “informed [her] of other methods of healthy, non-invasive, and non-medicinal” health care modalities. Correactology® influences staff in different ways but a stand out moment for Marilyn was encountering a young woman go from not being able to get pregnant and experiencing miscarriages to giving birth to a beautiful baby boy last year.

Outside of Correactology®, Marilyn enjoys spending time with her family. She has two daughters as well as two step children. They enjoy hunting, camping, dancing, and swimming. The next time you are at the Timmins clinic be sure to say hi to Marilyn!

JUNE 1-7 IS SUN SAFETY WEEK: LEARN THE FACTS AND STAY SAFE!

School is ending and camps are being opened. Remember to stay sun safe this summer. There are some benefits to UV rays but overexposure can lead to dangerous results. Too much sun can lead to: sunburns, skin cancer, eye damage, premature aging of the skin, and weakening of the body’s immune system. Please remember to cover up, wear sunscreen (reapply often), limit your time in the sun, and drink lots of water!

Did you know that animals practice sun safety too? Chimpanzees avoid the mid-day sun and hippos secrete an oil that acts as a natural sunblock!

PATIENT TESTIMONIAL

For 4.5 years, I was suffering from chronic pain. I tried different avenues such as going to see Naturopaths, Chiropractors, Physiotherapists, Massage Therapists and other forms of natural therapy. I know that they were helpful but my pain would not go away. I was discouraged. I was not feeling any better, then a family member recommended Correactology®. The relief I got

from the therapy was extremely encouraging. With time and patience I was getting better and the pain became manageable. It was no longer chronic. It changed my quality of life in more ways you can imagine. I know my triggers and I have learned how to deal with it.

I so very much recommend Correactology®. I had all kinds of help from wonderful people, but Correactology® is what changed my life.

- S. Delorme
