Patient Testimonial

I suffered from asthma and bronchitis for most of my adult life. The asthma got progressively worse until I was given puffers that I had to use daily. I originally heard about Correactology® from a friend. I decided to give Correactology® health care a try in 2007. I had monthly treatments until the fall of 2009. That is when I went out West for 6 weeks. I have never suffered from an asthma attack since. When you can't breathe, nothing else matters.
