PATIENT TESTIMONIAL

A year ago, I "lost" my daughter to PANDA (Pediatric Autoimmune Neuropsychiatric Disorder). For the next 8 months' doctors from all over couldn't help me. This illness hits 1-200 children a year but unfortunately there is no medical cure for it and it is not well recognized in the medical world. Doctors are very skeptical about this illness so it is a very difficult and lonely road. I felt completely helpless and at times hopeless. She had been out of school for a year and as time went on we saw no signs of her getting better. Correactology® gave us our daughter back. The endless extra hours that were spent researching and trying new corrections in order to help her finally worked. Allan Lapointe gave my daughter back her life and for that I will be forever indebted. Thank you for doing what no one else could do.

- C. Carbone
